

Training Scenarios based on Summaries from Qualitative Interviews

	Interview Question	Explanation of Expectation & Notes	Potential Answers	Answer Example from a Completed Interview (for reference)	Potential Follow-up Question(s)
A:	Have you heard about or known the Healthy Home programs/services to identify and reduce at-home environmental asthma triggers?	We are trying to see if the participant is aware of Healthy Home programs. Some additional context of what the programs are designed to do is given as some may not know a name for these services/programs.	Yes/No (binary; if/then)	See attached Word Document	See Question B for follow-up. If not, the researcher/s should provide examples of Healthy Home programs/services (e.g., mold removal, leak repairs, AC filter replacement, pest control, no-smoking policies). Then refer to Question B.
B:	Tell us more about the services you know or your family received?	This prompt seeks to find out if the participant is aware of, has access to, and has utilized services for healthy home environments. It also checks if property managers/h	Participants may list service providers, community organizations, or health workers (e.g., BreatheDC, pest control).	See attached Word Document	Were services provided by housing authorities, landlords, or property managers? What services were provided and how?

		ousing authorities are adhering to resident maintenance requests.			
C:	Have you found such services helpful?	This is a quality check/progr am evaluation to see if the services are effective.	Yes/No (binary; if/then)	See attached Word Document	If so, how? (e.g., reduced asthma triggers, remediation resources). If not, why not?
D:	Thoughts or opinions as to the ways the services are implemente d or monitored?	Identifies the quality of service delivery and implementat ion.	Open-ended subjective answers.	See attached Word Document	Do you have any recommenda tions to improve service implementat ion or monitoring?
E:	How do you think such services were delivered to or received by the residents?	Seeks to identify conflicts in service delivery that affect client satisfaction and requests.	Open-ended subjective answers.	See attached Word Document	Do you have any recommenda tions to improve service delivery and reception?
F:	What services and resources can housing agencies, property managers, landlords, health providers, and community- based organization s provide to effectively	Aiming to identify useful services and resources from various entities.	Participants may mention providers or community organization s like BreatheDC or pest control.	See attached Word Document	

	reduce at-home asthma triggers?				
G:	Have you ever heard of an Asthma Action Plan (AAP)? Have you had or do you have one for your child?	An AAP is a visual tool (like a stoplight) to manage asthma at different levels of severity.	Yes/No (binary; if/then)	See attached Word Document	
H:	If yes, has the action plan been helpful in asthma management for your child(ren)? If you have or had an AAP, how easy or difficult was it to adhere to the plan?	Evaluates how helpful the AAP has been. Generally well-received.	Open-ended subjective answers.	See attached Word Document	
I:	What do you think of the process of establishing the Asthma Action Plan? If you do not have an action plan, do you see any needs?	Seeks to understand the difficulty in developing an AAP and what support would help.	Open-ended subjective answers.	See attached Word Document	
J:	What do you want to learn more about regarding your child's asthma?	Ask what the caregiver wants to learn.	Open-ended subjective answers.	See attached Word Document	
K:	What educational resources/programs can help your	Seeks useful educational tools.	Open-ended subjective answers.	See attached Word Document	

	family to better understand and manage your child's asthma?				
L:	What is the best channel to deliver such educational resources/programs?	Asks about the best formats for delivering educational programs.	Open-ended subjective answers.	See attached Word Document
